

# SURVIVORSHIP

## T A S K ★ F O R C E

Cancer patients, and those closest to them will soon have access to a new concept in cancer therapy – right here in OUR community.

The Ottawa Regional Cancer Foundation is developing 'Cancer Survivorship Care' - a series of programs and workshops designed to assist cancer patients, and those closest to them, through every step of their journey from pre-diagnosis, through diagnosis, treatment, to post-treatment recovery.

Cancer Survivorship Care will be offered at the Cancer Foundation's NEW Maplesoft Centre. Trained cancer care professionals will offer tailored individual and group support services to address the emotional, physical and psychological needs of cancer survivors and their families - free of charge.

Today, we have assembled a group of dynamic community leaders who have accepted the challenge of raising the **\$2 MILLION** needed to support this innovative new programming.

Please join us in supporting the Ottawa Regional Cancer Foundation's SURVIVORSHIP TASK FORCE FUNDRAISING CAMPAIGN.

Survivorship happens one victory at a time.  
Together, we can make the next victory happen.

Sincerely,

Steven Baker Don Smith
